Property Description

Welcome to The Conde II, an exciting new development in the centre of the city.

This development qualifies for the Golden Visa 350 due to its approved licensing for Tourism and Services.

This is a very rare opportunity for Golden Visa Investors that are looking for a solid investment that is eligible for the program even after the recent restrictions that were introduced on the 1st of January 2022.

Given the development's location together with the generous price per m2, it's eligibility for the Golden Visa and the guaranteed yield of 4% for 5 years. This development is likely to disappear from the market as fast as it appeared.

Located in between the business and banking districts of Marques do Pombal and Saldanha whist claiming a charming, traditional and accessible pocket of the capital. The Conde II cannot be more central.

Marques do Pombal is used as a point of reference for the very centre of the capital and is home to Lisbon's hotel district , The Ritz , The Intercontinental and many established 5 star hotels hug Park Eduardo's offerings of lush green spaces, terraced cafes, gymnasiums and events halls. The foot of Park Eduardo is the starting point for Lisbon city sight seeing tours. Furthermore, this famous landmark sits on-top of a hub for public transport which connects the city underground lines.

The famous and exclusive Avenida Liberdade is the capital's avenue of wealth. Connecting Marques do Pombal with Rossio square and train station. 'Liberty' avenue is lined with fashion outlets, jewelry stores and high end restaurants.

Investing close to Marques do Pombal offers favourable and dependable capital appreciation. As the place to be in Lisbon, expect high occupancy throughout the 12 months of the year.

The Conde II Development is home to 10 serviced 2 bedroom apartments, complete with fully fitted kitchens and air-conditioning, it's occupants will enjoy both comfort and location.

Investors will likely take advantage of the **Guaranteed return of 4% for 5 years** from the time of completion. A rare and welcome opportunity for a fixed return while the property value appreciates.
