Property Description

Apartments with three bedrooms en suite, living and dining room and fully equipped kitchen. Inserted in a five-star resort where the natural landscape and the architectural integration with the surroundings are preserved, these apartments offer breathtaking views over the Óbidos Lagoon and the Atlantic Ocean. All apartments have access to the condominium pool. The walls in stained stucco paint, floors and doors with the appearance of raw wood, give shape to the interior decoration intended to be organic and sophisticated, with soft and neutral colors, so that the tranquility and harmony with the nature of the area is an experienced characteristic since the first moment. The result is a relaxing atmosphere, underlined by understated luxury. Energy Rating: A #ref:BL557(5)
