Property Description

A patio by the river.

You will find the Páteo da Cordoaria by the river.

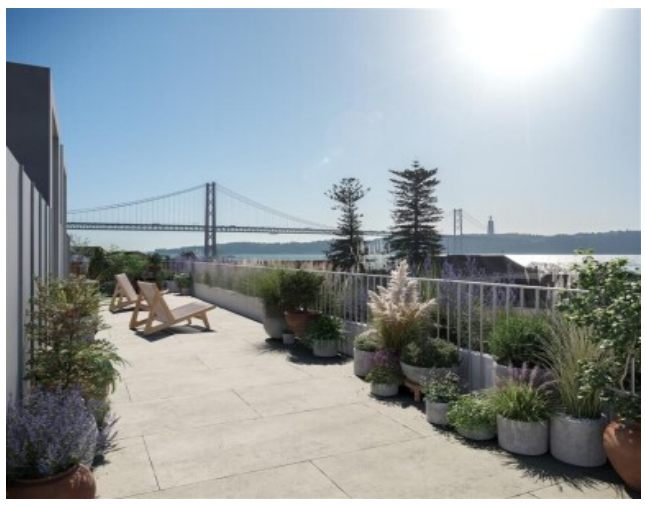

A building with a privileged location in the riverside area of Lisbon.

This development is divided into 4 blocks, comprising 16 apartments of different types, from 1 to 4-bedroom apartments, featuring several layouts for each one.

An authentic residential experience that includes private parking, a communal swimming pool and a garden with private swimming pool for some apartments.

It is the perfect combination of modern finishes of a refined architecture and the typical Lisbon architecture of an area that is involved with the historical, gastronomic, and commercial culture, with spots as iconic as Pastéis de Belém, bathed by the River Tagus.

The Páteo is for everyone looking for a quality of life based on the Lisbon spirit.
