Property Description

Tagus River as a neighbour

Located in one of Lisbon's most cosmopolitan neighbourhoods – Estrela – the 45 apartments at Infante Residences result from a thorough rehabilitation project of an iconic building in this city, with dazzling views over the 25 Abril Bridge and the River Tagus.

These authentic havens from city life are just a few minutes walking distance from the city's waterfront and several green areas, which are perfect for long walks or bike rides.

Surrounded by several options of public transport, services, restaurants and shops, this condominium can also count on the development of a new underground station that will improve the access of Infante Residences to the whole city.

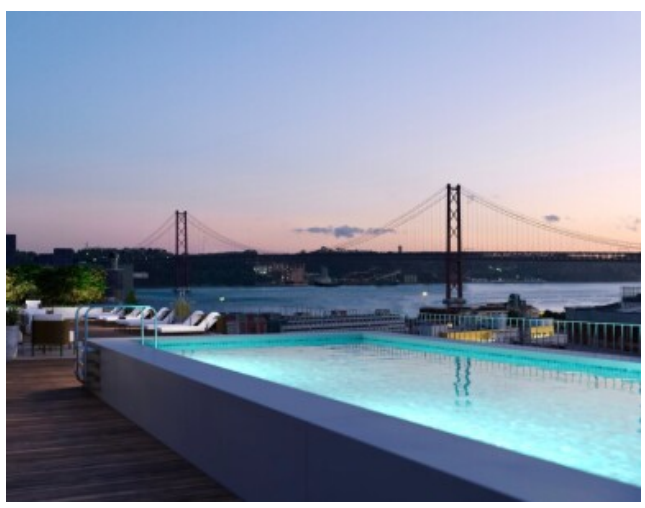

The Infante Residences condominium has exclusive access to an elegant rooftop with a swimming pool and a leisure area that is perfect for enjoying panoramic views over Lisbon and the River Tagus.

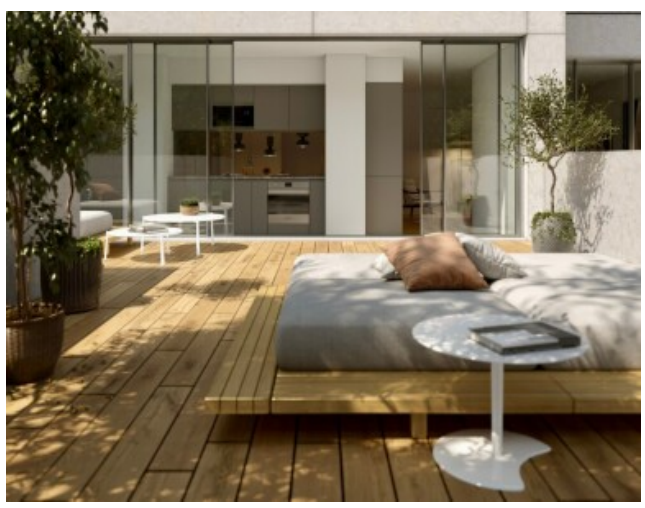

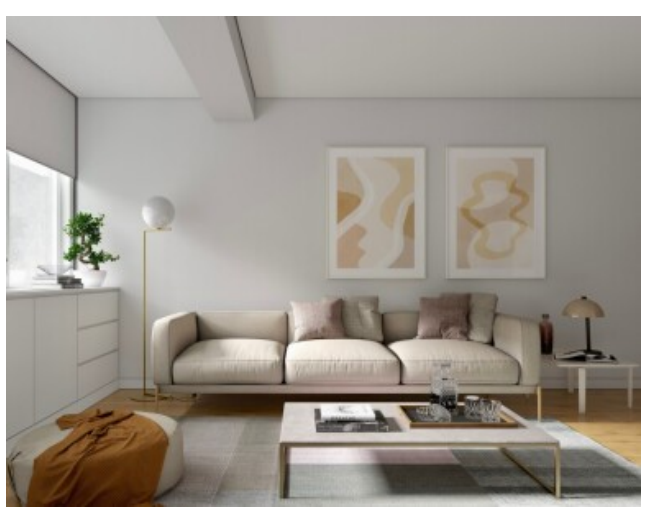

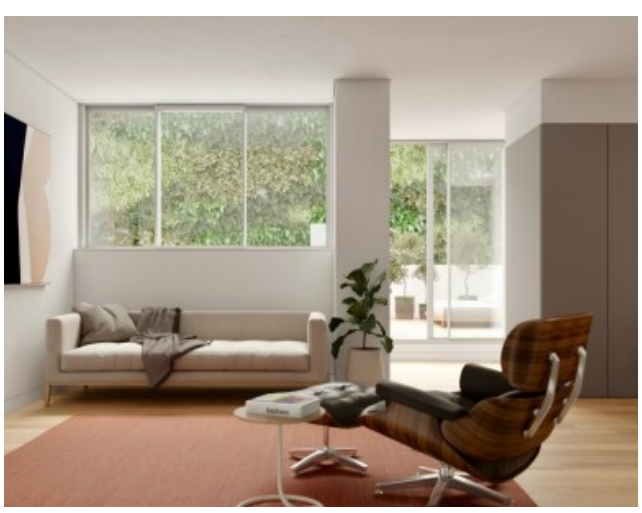

The interiors of the 1, 2, 2+1 and 3-bedroom apartments feature high quality finishes, claddings and materials that combine with the spaces’ excellent harmonious and functional design.

All the apartments have air conditioning, kitchens and bathrooms equipped with double glazed windows.

This project is for all true “Alfacinhas” who wish to experience the city as tradition dictates: between the Tagus and its hills.
