Property Description

In a remarkable area of Lisbon, in the parish of Estrela, a new project full of refinement will be born: the Real Calçada. 13 houses, of 2 to 4 bedroom, between 120 and 198 sqm, in a project that combines the refurbishment of an old palace with a contemporary construction of wide openings to the outside.

All the units have parking spaces and storage rooms, as well as outside spaces, including terraces, balconies and private gardens.

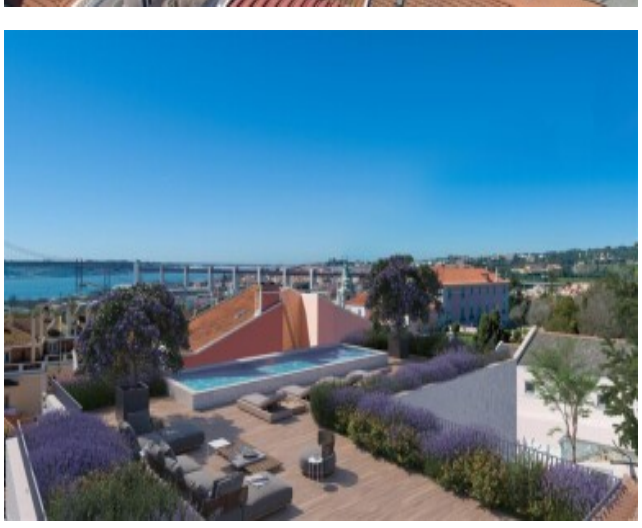

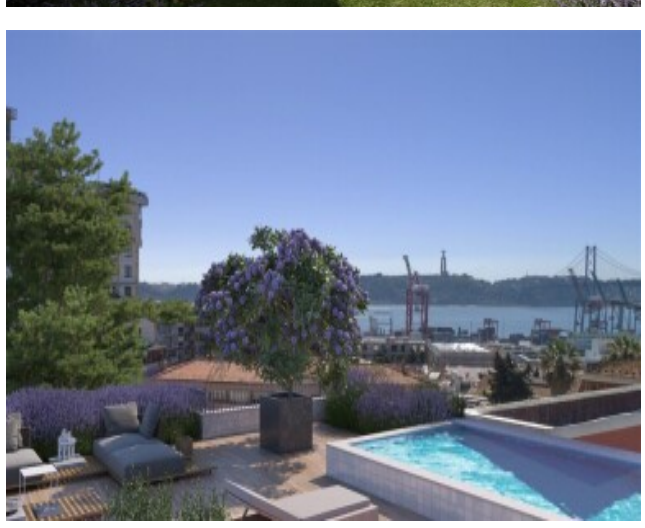

Its residents can also enjoy patios and gardens.

Real Calçada is located in a privileged location, next to Tapada das Necessidades - one of the oldest and best known green parks in Lisbon.

With quick access to the roads that connect Lisbon to Cascais or the Algarve, and to the most diverse types of public transport, it is also close to private and public hospitals, the marina of Doca do Espanhol, the most renowned museums and monuments of the city, restaurants and local shops.
