Property Description

A golden view

Golden View emerges on one of the main avenues of the city of Matosinhos, a six-storey private condo consisting of 34 apartments, type studio, 1-, 2-, 3-, and 4-bedroom apartments, with interior areas ranging between 35 sqm and 158 sqm.

All apartments have an outdoor area and parking.

The Golden View residential development combines history with the progress of a town under constant evolution, through the preservation of part of the original building's façade along with the contemporaneity of the elegantly clean lines of the new building, which now stand side by side.

This project merges with the aesthetics of Matosinhos beach, carrying the colours of its sands and sea into the building.

The entire condominium was planned to the finest detail, with apartments designed efficiently, offering modern and sophisticated finishes, adapted to a comfortable lifestyle and contemporary daily needs.

Golden View has a multipurpose communal leisure room with an extraordinarily enviable view over the sea, ideal for late afternoons celebrated with an amazing sunset.

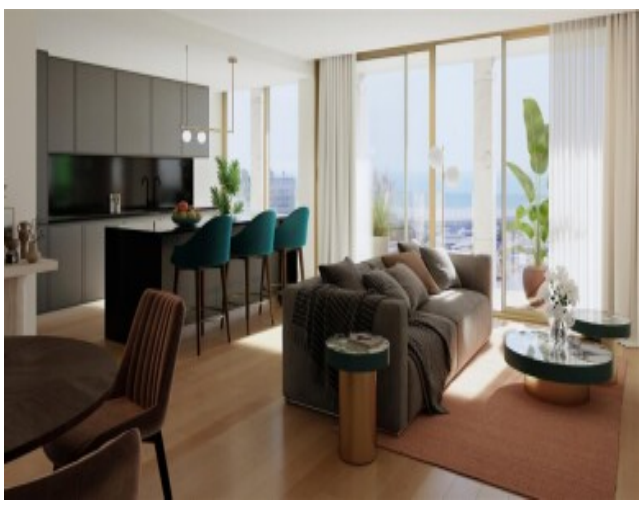

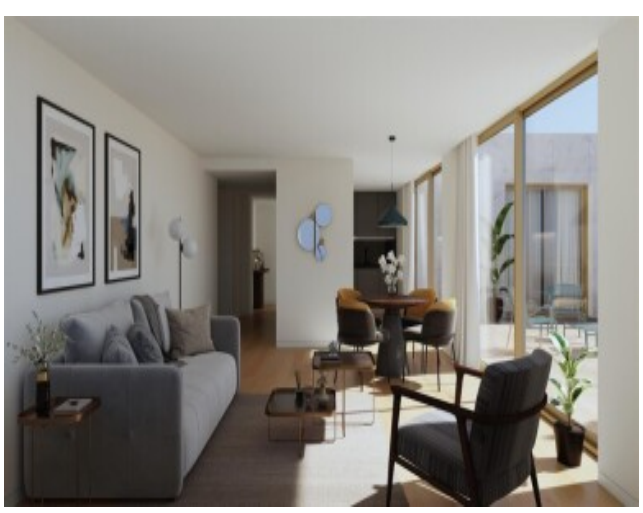

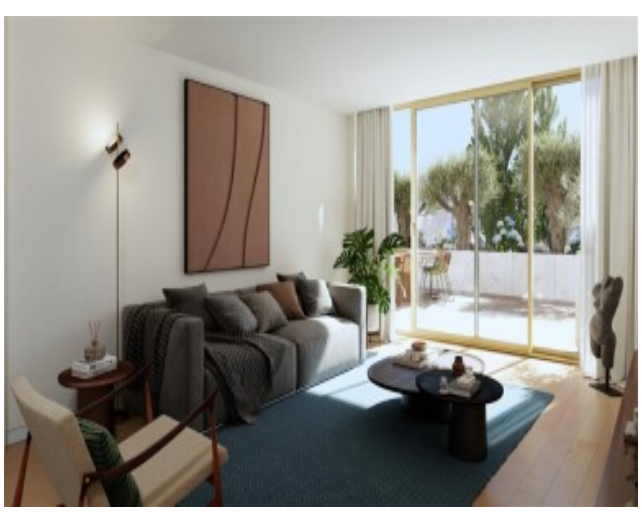

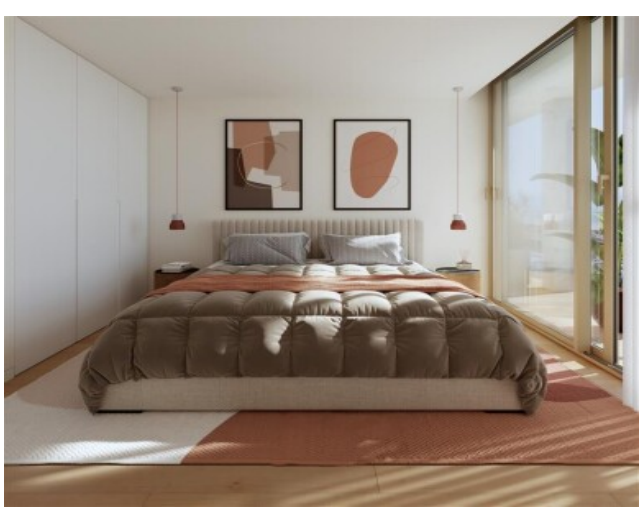

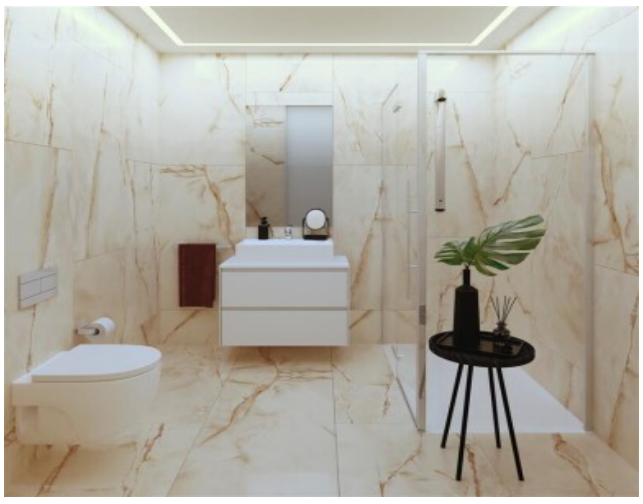

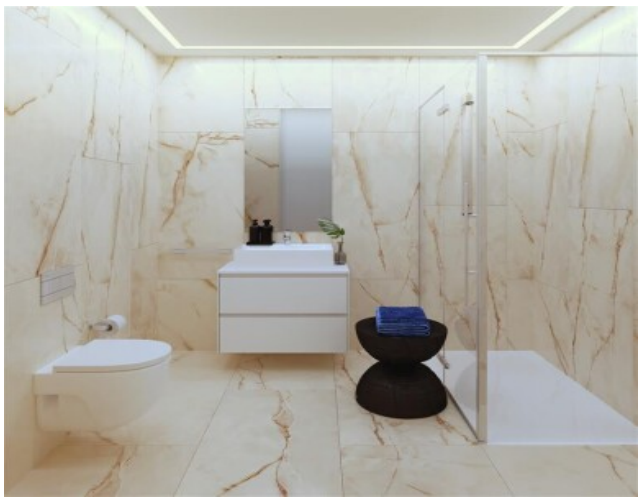

Located on one of the main avenues of Matosinhos, near the beach and Brito Capelo metro station, the Golden View benefits from a large range of shops, services, educational establishments, an efficient transport network, and excellent accesses.

Its central location enables an exceptional quality of life, combining a cosmopolitan environment with the sea, beach and near the greenery of Parque da Cidade, allowing for countless leisure moments.

This project is for those who seek modernity and centrality close to the sea.
