Property Description

Elegance on the Avenue

The Hilcrown Gaia Residence development is located on Avenida da República, in the centre of the city of Vila Nova de Gaia.

This eight-storey modern architecture building consists of 64 studio, 1, 2, 3, and 4-bedroom apartments.

With interior areas ranging from 38 sqm to 215 sqm, all units feature a balcony or terrace, and apart from studio apartments, all include a parking space.

The Hilcrown Gaia Residence project is characterised by a contemporary architecture with straight, elegant lines that blend with the urban features of Avenida da República.

The apartments stand out for their modern layout, with comfortable and functional interiors that let in plenty of natural light through large windows and glass guards, in harmony with the surrounding area.

The Hilcrown Gaia Residence combines quality of construction and modernity, functionality and mobility enhanced by its central location.

With a privileged location on the main avenue of the city of Vila Nova de Gaia, the Hilcrown Gaia Residence benefits from its proximity to a wide range of shops, services, schools, hospitals, cultural and sports facilities, an efficient public transport network and excellent access to dual carriageways and motorways.

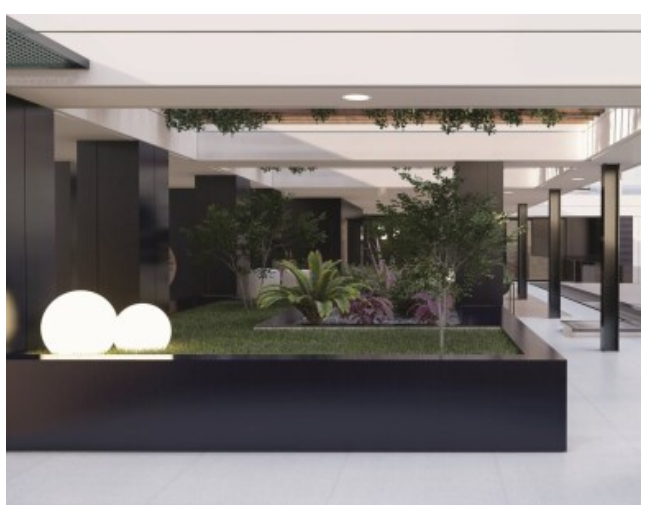

It is only a 5-minute walk from El Corte Inglés and the metro station connecting to Gaia quay and downtown Porto, both within a 10-minute ride.

It is also a 15-minute drive to Gaia beaches and its lively esplanades.

The Hilcrown Gaia Residence is the perfect choice for those looking for modernity, comfort and elegance combined with the convenience of a central location and a cosmopolitan lifestyle.
