Property Description

Penthouse, T4 in Foz with pool and rooftop overlooking the sea

The FOZVILLAS development is located in one of the most emblematic places in the city, the Foz area. . An extraordinarily quiet, reserved environment, but one step away from the main roads that allow easy access to the city center.
The FOZVILLAS project has generous private gardens, or a swimming pool and rooftop - to enjoy one of the best climates in the world: the Mediterranean:

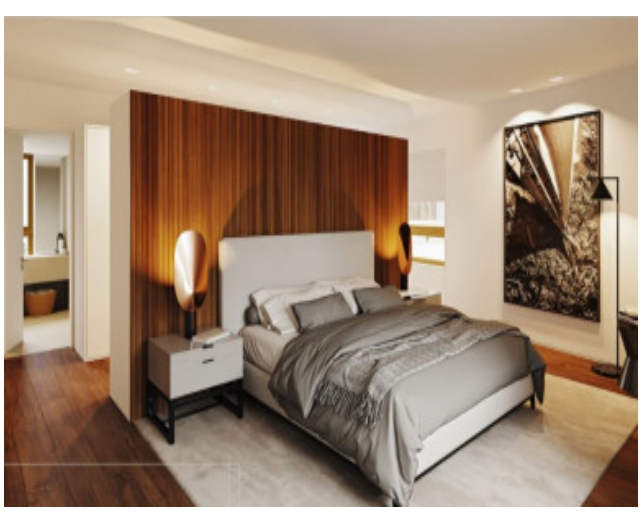

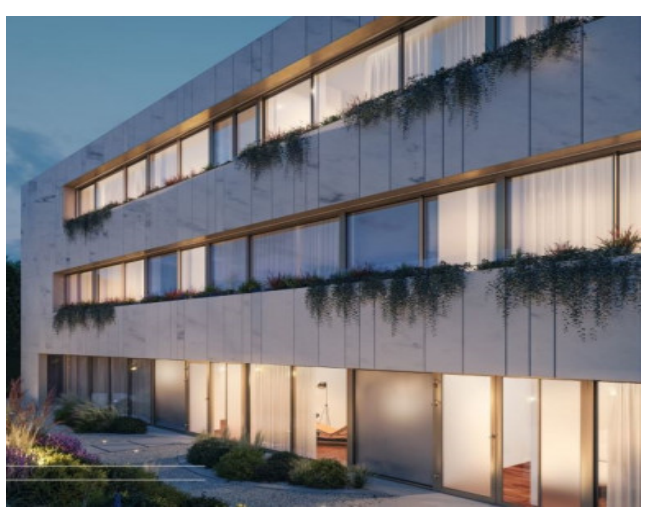

The six VILLAS are developed on different floors and different typologies: on the top floor and on the roof we find the two penthouses (T3 and T4) with a swimming pool and rooftop - from where it will be possible to see the sea.
In the remaining four duplex VILLAS (T3, T4 and T5) there is, on the ground floor, a direct relationship with the exterior that extends the interior of the house to the private spaces of generous gardens.

Total privacy is guaranteed in all VILLAS, which benefit from parking in an individual box, with a private elevator to access the house; the vast green area between the 2 volumes of the development reinforces this privacy, in addition to guaranteeing the exterior spatial quality of the houses, making them more protected. Premium materials and finishes and state-of-the-art technologies accompany the design of these homes, designed for a particularly demanding segment.
