RESIDENTS – Real Estate is a real estate agency specializing in prime areas of the city of Porto and particularly dedicated to working with foreign investors and buyers.

Its founders have over 10 years of experience in the real estate market.

RESIDENTS was created in 2021 to fill a gap that its founders believe exists in the real estate market in the city of Porto.

In this sense, Residents aims to simultaneously meet the following requirements:

- Detailed and in-depth knowledge of the areas sold;
- A vocation and preparation to work with foreign investors and buyers;
- Technical capacity to support and advise foreign entities and individuals regarding their investments in Portugal;
- Technical capacity and competence assured by many years of experience in the economic and financial assessment of real estate investments;
- Legal partnerships to support and advise Portuguese and foreign investors on related matters such as:
 - o Real estate law;
 - o Taxation;

All Residents employees have in-depth knowledge of the areas sold. For this reason, Residents' areas of operation are restricted to Prime areas of the city of Porto, with only a few exceptions being made in very specific cases.

Residents' partners have academic training and specializations in the areas of law, economics and marketing in Portugal and abroad. This factor guarantees the technical capacity necessary for excellent support both in a simple purchase and sale, as well as in more complex businesses and transactions. Finally, and most importantly, what we intend to be our greatest asset: TRUST. We are guided by high standards of transparency, ethics and competence. The reputation of Residents partners is our Brokerage's most important asset. We want Residents to be synonymous with TRUST and that is what we focus all our activity on.
