Car electric charging

RESIDENTS – Real Estate is a real estate agency specialized in prime areas of the city of Porto and particularly dedicated to working with foreign investors and buyers.
Its founders have over 10 years of experience in the real estate market.
RESIDENTS was created in 2021 to fill a gap that its founders believe exists in the real estate market in the city of Porto.
In this sense, Residents aims to simultaneously meet the following requirements:
• Detailed and in-depth knowledge of the areas marketed;
• Vocation and preparation to work with foreign investors and buyers;
• Technical capacity to support and advise foreign entities and individuals regarding their investments in Portugal;
• Technical capacity and competence assured by many years of experience in the economic and financial assessment of real estate investments;
• Legal partnerships to support and advise Portuguese and foreigners on related matters such as:
o Real estate law;
o Taxation;
All Residents employees have in-depth knowledge of the areas marketed. For this reason, Residents´ areas of activity are restricted to Prime areas of the city of Porto, with only a few exceptions being made in very specific cases.
Residents´ partners have academic training and specializations in the areas of law, economics and marketing in Portugal and abroad. This factor guarantees the technical capacity required for excellent monitoring, both in simple purchases and sales, as well as in more complex transactions and deals.
Finally and most importantly, what we intend to be our greatest asset: TRUST.
We are guided by high standards of transparency, ethics and competence. The reputation of Residents partners is our Brokerage Firm´s most important asset. We want Residents to be synonymous with TRUST and that is what we focus all our activity on.
