Property Description

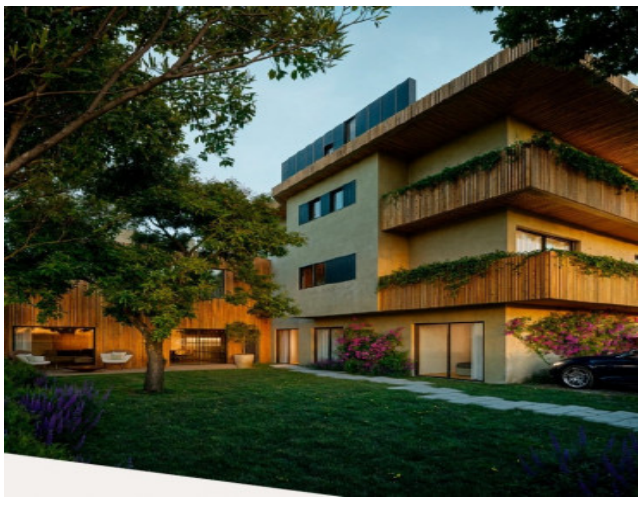

Two-bedroom apartment with terrace, balcony and river view

This project stems from the complete renovation of a luxury single-family home from the 1970s, located in one of Porto´s most emblematic areas—the riverfront of Foz do Douro. This west-south facing hillside is surrounded by equally luxurious homes and represents an architectural landmark, where tradition and modernity meet in perfect harmony.

This exclusive development pays homage to the 16th-century writer and historian Gaspar Correia, the street´s namesake, whose work, "Legends of India," is considered a treasure trove of documentation of the Portuguese presence in the East. Inspired by this heritage, the project offers a distinctive lifestyle, combining history, comfort, and sophistication.

Comprising only 7 apartments, the building offers one- to three-bedroom apartments, with garden, view, and rooftop options. All apartments have an elevator and private parking, providing the privacy and convenience of an exclusive condominium, ideal for those looking to experience the city with elegance and tranquility.
