Property Description

We present an exceptional plot of land with 35,000m2, located in Moita, ideal for various types of projects: housing, commerce, services, or facilities. The versatility of this space allows for construction to be adapted to market needs and investments with great potential.
Located near the main road accesses, this land benefits from privileged mobility and an increasingly valued central location. The area is in rapid expansion, driven by major projects under development in the region, namely: the New Luis de Camões Airport in Alcochete, the High-Speed Line (TGV) connecting Lisbon to Madrid, and the new Road-Rail Bridge that will ensure the connection between Lavradio (Barreiro) and Marvila. These infrastructures will profoundly transform the economic and urban dynamics of the area, increasing the demand for spaces with characteristics like this one. A strategic opportunity to invest in the future.
Invest where appreciation is guaranteed, contact us!
