Property Description

Located in Montijo, with an already approved project, it presents a harmonious architectural solution integrated into the neighborhood, with modern lines, quality materials, and carefully crafted facades.

The presented property stands out for its modern architecture integrated into a consolidated urban context, distributed over several floors and showcasing a balanced composition between functionality and aesthetics.

The facade reveals large balconies, generous openings that ensure excellent natural light, and a main entrance marked by elegance and symmetry.

The building includes a garage at the ground floor level and several well-organized residential floors. The use of ceramic coverings, high-efficiency aluminum frames, and a tiled roof reinforces durability and thermal comfort.

This is a solid project, designed to offer residential quality, comfort, and future appreciation in one of Montijo's most dynamic areas.

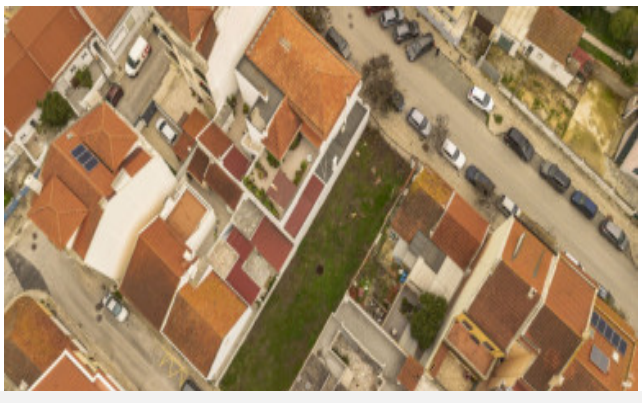

A solid opportunity in one of the most rapidly evolving urban locations on the south bank.

Perfect both for living and investing.
