Property Description

Excellent T4 apartment (former 3-bedroom apartment), located a few meters from S. Domingos de Benfica Market and close to the Zoo, it is served by all kinds of local commerce, services and transport network, with proximity to the main access axes to the city center and beyond.

This property features a modern and bright design, consisting of a long corridor, which connects to all the living areas. The light and brightness of Lisbon, which enter through the windows of the white house, make the living space very welcoming and pleasant.
The total remodeling of the building in 2019 was designed to preserve the characteristic Lisbon style on the main façade and make its interior modern, with an open space concept for the living room and kitchen with a modern central island and fully equipped: hob, fridge, oven and microwave, dishwasher and washing machine.
It still has four bedrooms, which are located along the corridor, two of them with a balcony, and two bathrooms, one of them in suite.
Includes a parking space in the common backyard of the building.

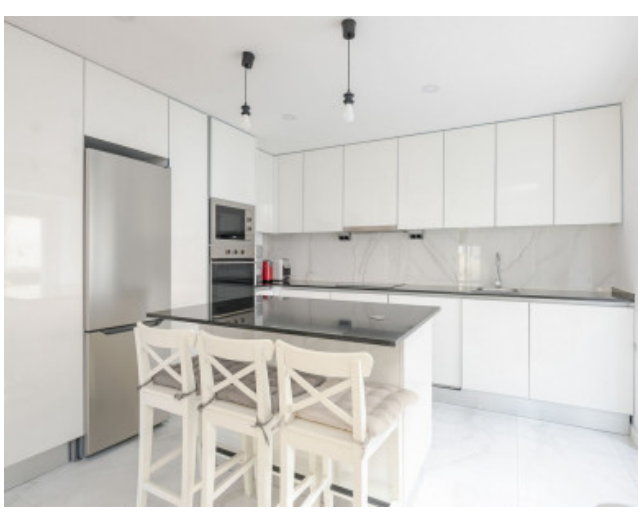

Property with great potential for investment with annual Yield of 5.3%.

Come visit, we are waiting for you!
