## Property Description

Montebelo Villas is a private condominium of exclusive villas located in the heart of Foz Velha, one of the rarest and most prestigious locations in Porto, where the simultaneous proximity to the Douro River and the Atlantic Ocean creates a truly unique experience. Signed by the Nuno Valentim Arquitectura studio, the project was born from the careful integration between contemporary architecture, gardens and the historical identity of the surroundings, creating a rare balance between privacy, nature and urban centrality.

Scheduled for completion in the first quarter of 2027, the development is currently under construction, allowing us to understand the scale, materials and architectural quality of the project. Some of the villas have since been selected, reinforcing the exclusive and limited character of this residential collection.

Montebelo Villas is developed through a limited set of 12 villas distributed among different typologies and housing concepts, including contemporary villas V3, V4+1 and V5, all with large indoor and outdoor areas, private gardens and swimming pool. The villas of Lot 1 are distinguished by the interior courtyards, the abundant entry of natural light and the fluid continuity between the interior and exterior spaces, creating true urban refuges in the city centre.

Each house was designed to guarantee autonomy, comfort and privacy, while benefiting from an architectural language consistent with the scale and authenticity of Foz Velha. The natural materials, the gardens designed by Rita Guedes and the strong presence of vegetation create a serene and timeless atmosphere, where everyday life is permanently related to light, patios and green spaces.

The development was internationally distinguished with the Luxury Lifestyle Award in the "Best Luxury Sustainable Villa Development" category, recognising the architectural quality, sustainability and urban integration of the project.

Location is one of its greatest attributes. Inserted in one of the most emblematic areas of Foz, it benefits from immediate proximity to Passeio Alegre, Catholic University, Oporto British School, Foz Market, bike path, beaches, restaurants and green spaces such as the Passeio Alegre Garden and the City Park. A place where the historic streets, gardens and proximity to the sea define a rare living experience in Porto.
