Property Description

Casas do Mar - Where architecture meets sea

In perfect harmony with the surrounding landscape, an exclusive residential project is born designed to provide an authentic connection between the interior and the exterior.

With only 21 apartments of typologies T2 and T3, each unit was designed to privilege space, natural light and fluidity — with large social areas and open space kitchens, surrounded by a palette of grey-green natural tones that reinforce the serenity of the environment.

The apartments on the ground floor offer a garden and a private pool, while those on the ground floor elevate the experience with terraces and rooftop pools, creating true havens with sea views.

Signed by the prestigious RRJ Arquitetos office, the project stands out for its contemporary architecture and the way it subtly integrates into the natural surroundings.

Located on the seafront, a few steps from the beach and next to Porto Covo Praia Hotel & Spa, it offers a rare and privileged location.

The common areas invite well-being and conviviality, with a living room, bar support, garden and swimming pool. It also has parking and technical areas on the -1 floor.

Designed for comfort and efficiency, it integrates sustainable solutions such as solar panels, heat pump and mechanical ventilation.

In an advanced stage of construction, this is more than a development — it is a lifestyle.

Discover your place by the sea.
